SUCCESS OF WAR HINGES ON FOOD

PLAN FOR CONSERVING SUPPLY
AND CURBING SCALPERS
OUTLINED.

HOOVER ON CONTROL

Allies Supplies Will Be 40 Per Cent
Short With U. S. Aid He
Says.

New York, June 19.—A statement saying every available cold storage place in this city is full to capacity, and charging that retailers are maintaining high prices in spite of affluence of food, was issued here to-night by Joseph Hartigan, Commissioner of Weights and Measures.

"Butter, cheese and eggs have come into New York in such quantities as to cause a glut in the market," he added. "It is the first experience of the kind enjoyed by the wholesale trade."

Washington, June 19.—While both branches of Congress continued, a food control bill to-day, Herbert C. Hoover, food administrator, spent four hours at the Capitol emphasizing to a score of Senators gathered informally to hear him explain food legislation necessary to success in war.

Under sharp and argumentative questioning by a group headed by Senators Gore, Reed and Vardaman, opposing the legislation, Mr. Hoover outlined his plans for conserving the nation's food supply, increasing production and cutting off the excessive profits of speculators. He did not conclude and will return to the Capitol Friday for further examination in an effort to clear up congressional and public misconceptions and hasten action.

The Senate had only a brief discussion of the bill and recessed until to-morrow. Senator Chamberlain announced it would be kept continuously before the Senate until disposed of and that Senators would be pressed to expedite debate and action.

House Opposition Wanes.

With but a handful of members attending, House debate continued until late to-night. Opposition there appeared to be waning, and leaders hoped to conclude general debate to-morrow, planning then to consider amendments and pass the bill by Friday or Saturday. Food conditions which face the Allies and this country were frankly and fully explained by Mr. Hoover. Without Government food control, to a great degree in actual administration, he explained, will be voluntary and not enforced—a "mobilization of the spirit of self-denial and self-sacrifice" in preventing waste of foodstuffs.

That the rationing or other enforced regulation of the American dinner table is proposed was denied by Mr. Hoover. Also he said requisitioning of factories or regulation of wages is not contemplated and that exaction of war profits in distribution of food, largely by voluntary co-operation of business interests involved is the prime object of the bill.

Four basic measures of food control planned, Mr. Hoover said, are export regulation, control of distribution including speculation, mobilization of America's women and men in a campaign participation of the States in administration work.

Control of Prime Commodities.

Federal commissions to control wheat, sugar and a few other "prime commodities," by regulation of production, storage, transportation and sale also are contemplated, he said, but instead of injuring farmers, as some have claimed, these things will benefit both producers and consumers without curtailment of middlemen's normal and fair profits.

Asserting that the Allies' food supply will be 40 per cent. deficient even with America's food surplus assisting, Mr. Hoover said the deficiency must be made up by sacrifice abroad and economy here. Saving of 6 cents a day per capita in this country, he declared, would save \$2,000,000,000, while a 20 per cent. saving in flour would give 100,000,000 bushels more to the Allies.

In this connection he told the Senators that speculators in flour alone

have taken \$50,000,000 a month from the American public during the last five months.

Senators Gore, Reed and Vardaman plied Mr. Hoover with questions in such fashion that he told them with some emphasis that he had not asked Congress to do anything although he believed the proposed legislation vital to the conduct of the war. The opposing Senators contended that the bill would reach into infinite avenues of American life, disturb business, take property without compensation and embark upon an enterprise of varied dangers.

Opposition dropped perceptibly in the House as the debate dragged along today, and to-night Representative Haugen, of Iowa, the only member of the Agriculture Committee to file a minority report against the bill, said there would not be fifty negative votes on final passage. He said he would vote for it himself, although he would make an effort to restore to the lists of necessities shoes and clothing as originally proposed by the Administration.

Representative Graham, of Illinois, speaking in favor of the measure today, aroused interest by submitting a comparative list of American and British prices on staples received by him from Ambassador Spring-Rice on last May 19. Some of the English prices were lower than the American prices despite the fact, as Mr. Graham said, "that England is surrounded by submarines."

The prices follow:

English: Beef, 44 cents a pound; butter, 40 to 56 cents a pound; potatoes, \$1.10 a bushel; bacon, 48 cents a pound, and flour, \$8.20 a barrel.

The American prices on the same day were: Beef, 42 cents a pound; butter, 42 1/2 cents a pound; potatoes, \$3.75 a bushel; bacon, 45 cents a pound, and flour, \$17.50 a barrel.

WOMAN BARES A \$500,000 FRAUD

GET-RICH-QUICK SCHEME, NINE
ARRESTS MADE AFTER
CONFESSION.

New York, June 19.—Attempted murder, robbery and blackmail were interwoven in a confession made to United States Commissioner Gilchrist today by "Mrs. Ray Hyman," the "50-per-cent a month banker," who is charged with appropriating money entrusted to her for investment without security, and which is said to exceed \$500,000. The woman's revelations brought about the arrest of nine persons, who were held in \$2,500 bail each, and warrants were issued for five others.

Mrs. Hyman appeared before the commissioner in bankruptcy proceedings. After five days in the Tombs prison she decided to involve all who participated in her "get-rich-quick" scheme, she declared. She told of those who worked with her to fleece the public, how they advanced her money to further the scheme and how hundreds of persons had been brought to her with their savings through tales of high interest spread by these co-operating with her.

Tried to Drown Her.

Mrs. Hyman charged that certain persons who had obtained large sums of money from her and were expecting an exposure of the swindle tried to drown her in Oyster Bay by overturning their boat. After she had been rescued by life-savers and had recovered, she alleged, \$8,000 had been taken from her pocketbook by her companions.

Mrs. Hyman stated that "investments" totaling approximately \$500,000 were to have been wiped out by going into bankruptcy. She admitted that not a dollar of the money she received from her "clients" had been invested, the scheme simply being to pay occasional dividends from what came in as investments and to keep clients coming so fast that the income would exceed payments.

Josh Griffith Loses Corn.

Henderson, Ky., June 18.—Among the largest losers of corn in the Scuffletown section by the high water, was Josh T. Griffith, of Owensboro, who owns a big tract just above Scuffletown. It is estimated that fully 300 acres were drowned. Tenants on the farm are working day and night in an effort to replant the crop. Owensboro Inquirer.

MINE WORKERS VOTE TO STRIKE

GIVE OPERATORS TILL JULY 3,
TO ACCEDE TO THEIR
DEMANDS.

STRIKE CALL UNANIMOUS

Western Kentucky Coal Field Is Affected By Strike Order.

Madisonville, Ky., June 19.—A strike of the miners employed in the non-union mines of Hopkins, Union, Webster, Christian and Henderson counties has been called for Tuesday, July 3, and will become effective unless the operators grant the demands of the United Mine Workers of America, according to action decided upon at a convention of miners from these counties held here to-day. The resolution calling for the strike was unanimously adopted.

W. D. Duncan, of Central City, president of District 23, U. M. W. of A., gave the Courier-Journal correspondent the following statement:

"Efforts to organize this non-union coal field have been under way some time, and we now have many members. Recently the operators, through President White, were invited to meet the organizers here in an effort to reach an agreement. The operators declined to do so. Their refusal was reported to the various locals in these counties, resulting in these locals demanding the convention which was held here to-day. There were fifty delegates present."

Text of Resolutions.

The resolutions adopted follow:

Whereas, For almost half a century the miners of the Hopkins county coal field have been working for the lowest wages and under the most intolerable conditions existing in any coal field in America, and

Whereas, At the present time the wages paid in this field are wholly inadequate to meet the war prices of the necessities of life, and

Whereas, The outrageous prices now being paid for coal upon all the markets of our country will unquestionably justify our employers in paying us a decent living wage for our labor, and

Whereas, All honorable means to induce our employers to grant our just and reasonable demand have been exhausted, our petitions having been ignored and spurned, and

Whereas, It has been our firm and earnest desire to refrain from any action that would in the least degree

embarrass our Government in this grave crisis, and

Whereas, Every effort on our part to bring about an amicable adjustment of our differences with our employers has utterly failed, therefore be it

Resolved, That a strike of all the coal miners in the nonunion mines of Hopkins, Christian, Union, Webster and Henderson counties be and is hereby called to take effect July 3, 1917, and remain in effect until our just demands are granted and our constitutional rights are recognized.

Operators in Hopkins county claim they will not recognize the union, and several stated that the strike would not affect their business as the men employed by them were satisfied and do not belong to the union. On the other hand, the organizers claim to have a big percentage of the miners enrolled, and claim their efforts to organize this field will be successful this time.

HOPE FOR REDUCTION IN BRITISH EXPENDITURES

London, June 20.—Andrew Bonar Law, the chancellor of the Exchequer, in answering a question in the House of Commons to-day said he hoped and believed there would be a reduction from the recent expenditure. He had no hope whatever of a reduction of the estimated expenditure, however, as a result of the entrance of America into the war.

INDIANAPOLIS MAYOR RESENTS REPORTS

Indianapolis, June 19.—Mayor Bell to-day branded as "a libel on the city" widespread reports that moral conditions in Indianapolis are such as to imperil the morals of soldiers at Fort Benjamin Harrison.

GERMAN CASUALTIES TOTAL 4,356,760

MAY ADUS 22,000 DEAD, 26,562
PRISONERS AND 62,394
WOUNDED TO LIST.

London, June 19.—The German casualties as reported in the German official casualty lists in the month of May follows:

Killed and died of wounds or sickness, 22,000; prisoners and missing, 26,562; wounded, 62,394. Total, 110,956.

These casualties added to those previously reported give the following totals since the beginning of the war:

Killed and died of wounds or sickness, 1,068,127.
Prisoners and missing, 557,410.
Wounded, 2,731,223.
Total, 4,356,760.

HINDENBURG LINES.

FOURTH KENTUCKY TO BE ORGANIZED

IT IS SAID THAT NEW UNIT WILL
BE COMPLETED IN SIXTY
DAYS.

ARTILLERY AND ENGR'S

A Battalion of Field Artillery and
Two Companies of
Engineers.

Lexington, Ky., June 19.—The Fourth Kentucky Infantry, a battalion of field artillery and two companies of engineers are to be organized forthwith. It was announced here this afternoon. The three regiments now constituting the Kentucky Brigade will be mobilized at Camp Stanley here within ten days. To bring these regiments up to war strength, which is essential to the organization of the Fourth Infantry and the auxiliary units, five recruiting parties will start a tour of the State to-morrow. It is expected this new request will be completed within sixty days.

"The first infantry already is at war strength and the recruiting schedule contemplates filling the second and third within three weeks," said Maj. Gordon, Brigade Adjutant, to-day. "However, those interested in the new regiment, the artillery battalion and the engineer companies, will not have to wait for this. It will be the policy to award commissions to qualified men who raise units of these outfits. Men suitable for commissions all over the State are invited to open correspondence with these headquarters relative to the raising of platoons, companies and battalions."

Including the signal, ambulance and field hospital companies which will be brought into the national service shortly, the war strength of the brigade as now organized is approximately 6,300 enlisted men and 190 officers. The new units will add 2,940 enlisted men and 83 officers to this complement.

The Fourth Infantry will accommodate 2,002 enlisted men and 56 officers and the engineers 328 men and 8 officers. In addition to the line officers accounted for, there will be six commissions for doctors and three for dental surgeons. Each regiment will have 124 mules, 55 horses and 27 wagons, and the extra units their proportionate share.

The three regiments now in service will be assembled here just as soon as the water system can be completed. An officer for this has been recommended and an appointment may be made from Chicago to-day. Should delay be unavoidable, an emergency will be recognized and Capt. W. S. Evans, supply officer of the Third Infantry, will be temporarily made Brigade Quartermaster. Evans already has been given authority for the conversion of three large tobacco barns on the reservation into barracks which will accommodate about 1,000 men. The Second Regiment, which is scattered over Eastern Kentucky, and the First, which has its camp at Louisville will be here within ten days, it was announced to-day.

Ohio Countian Honored.

Dr. George L. Everly, of Rockport, was elected president of the Eclectic Medical Association of Kentucky, at its 29th annual convention held in Louisville, on last Monday. The Republican, with Dr. Everly's numerous friends, are pleased to learn of the honor thus conferred upon the Dr. and Ohio county by having one of her medical sons placed at the head of this association as chief executive.

COL. ION B. NALL HAS PASSED AWAY

Col. Ion Beverly Nall, who died at the Soldiers Home, Johnson City, Tenn., some days since, was born and reared in Hartford, his age was 74 years. Deceased enlisted as a private in the Union Army, at the breaking out of the War, from which Co. F 17th Ky. Inf., he rose to the rank of Lieut. Col., which position he held when mustered out at the close of the War. For a quarter of a Century or more Col. Nall was Editor of

the Farmers Home Journal and under his management it grew to be one of the foremost Agricultural Journals circulating in this part of the Country. Besides many other more distant relatives residing here Col. Nall had four nieces and one nephew, Mrs. H. P. Taylor, D. E. B. Pendleton, and Misses Jessie, Margaret and Poppie Nall.

REGISTRATION FIGURES NOW TOTAL 9,611,811

Washington, June 19.—Provost Marshal General Crowder is completing draft regulations while waiting for final war registration returns. With Wyoming the only State yet to report, figures at Gen. Crowder's office tonight totaled 9,611,811. A telegram from Wyoming to-night promised complete returns within twenty-four hours.

In a statement issued to-night Gen. Crowder warns registrants who are absent from their homes that the burden of ascertaining whether they have been drafted rests entirely upon themselves. The statement calls attention to the fact that the draft will be made for the army alone—not the navy—and that choice as to branch of service cannot be guaranteed to those conscripted.

ANY DRINK WITH ALCOHOL HELD INTOXICATING LIQUOR

Washington, June 19.—Any drink containing alcohol was defined by the Post-office Department to-day as intoxicating liquor within the meaning of the law forbidding mailing of liquor advertisements into dry territory after July 1. Methyl, wood and denatured alcohol are excepted. The department ruled also that the prohibition against advertisements applies to liquor for scientific, sacramental, medicinal and mechanical purposes.

COAL AND STEEL ITALY NOW NEEDS

SENATOR MARCONI URGES PUTS-
BURG TO ASSIST IN REBUILD-
ING SHIPS.

Pittsburg, June 19.—Senator Guglielmo Marconi, member of the Italian War Mission, in an address delivered at a dinner given in honor of the mission here tonight, carried the appeal of the Italian Government for coal and steel as the two great needs of that nation in winning the war to the center of America's coal and steel industry. The dinner brought to a close one of the warmest receptions received by the mission in its circle through the South and Middle West. More than 50,000 persons greeted the mission on its arrival here shortly before noon. This afternoon the members of the party visited a number of the larger industrial plants.

"The industrial centers of America can render a great service in bringing the war to a successful conclusion by the production of steel plates and other supplies necessary to rebuild the world's diminishing tonnage," declared Senator Marconi. "Italy today has nearly 4,000,000 men under arms. Our need is not men but arms. War supplies we cannot get because of the scarcity of tonnage. It is Italy's hope that America can supply this tonnage and by means of it the vitally necessary coal and steel."

When the United States entered the war, Italy felt satisfied that the cause for which she was fighting was just, asserted Marquis Luigi Borsarelli di Riffredo, Under Secretary of State for Foreign Affairs.

"Italy's war aims are those of the United States," said Marquis Borsarelli. "We are fighting for the same democracy and humanity."

The mission left late to-night for Philadelphia.

CHARGE EXPLOITATION OF WOMEN WORKERS

Washington, June 19.—A protest charging that war has resulted in the exploitation of women workers on Government contracts and the violation of labor standards in Government departments was presented to White House officials and several Cabinet members to-day by a committee of the National Women's Trade Union League.

OPERATIONS OF GERMAN U-BOATS

HALF OF SUBMARINE LOSSES
TAKE PLACE IN THE
MEDITERRANEAN.

TRANSPORTS TARGET

Vessels Bearing Food, Coal and War
Supplies Special Mark For
Submarines.

Rome, June 16.—The Mediterranean is now the center of German and Austrian submarine activity.

According to Italian shipping leaders, half the allied tonnage destroyed in April was lost in the Mediterranean Sea. It consisted chiefly of large transports laden with coal and victuals for Egyptian and Mesopotamian army bases.

The people of Italian sea towns tell wonderful stories of submarine activity and exploits along the Tyrrhenian coasts. Submarine commanders seem to be extremely fond of paying unexpected brief visits to towns nestled among rocks and reefs and almost invisible from the sea.

As soon as the commander of the nearest torpedo base answers the wireless, informing him that the enemy has arrived, the commander of the submarine, who in the meanwhile has tried his marksmanship against the local bell tower or railroad station or has sunk whatever sailing craft happen to be in the harbor, salutes and disappears below the surface.

How Transports Are Attacked.

Sometimes other towns relate, a submarine follows undetected a convoyed transport till within a short distance from the home port, remaining submerged till late in the evening. When everything is quiet and the convoy has left and the crew of the transport feels safe within the friendly harbor, the submarine pops up and the ship is sunk.

One of the spots most badly infested by U-boats in Italy is the Straits of Messina. Since Italy intervened in the conflict the ferocious trains running to Syracuse and Palermo have been manned by picked crews from the Italian navy and are armed with powerful guns. Yet the submarine is always on the lookout for a favorable opportunity. Whether this opportunity has ever presented itself only the Italian Admiralty is in a position to say with accuracy.

Raider Put To Flight.

Syracuse, which is the home port of every ship plying between Italy and Tripoli, has had quite a different experience. The entrance to the harbor is never free from mines and, now and then, notwithstanding the steady work of the Italian mine dredger, a ship is towed back to port either in a sinking or greatly damaged condition.

Several days ago an Austrian submarine appeared off Portoferraio, Elba, and started to corral all the fishing and sailing vessels engaged in the coastwise trade. Apparently the submarine felt absolutely safe and in less than four hours eight or nine craft had been collected and the order given to their crews to take to the life boats.

The panic-stricken sailors were watching with tears in their eyes the preparations the submarine was making to sink the boats, when all of a sudden a report rang out and a shell splashed in the water only a short distance from the raider.

The commander seemed puzzled, but a second shot sent him scurrying below deck and soon after his boat dived and was never seen again.

But what occurs along the 5,000 miles of Italian coast is nothing compared to what happens around Malta, which is England's main station on the route to Port Said and Saloniki, and England's most powerful torpedo base. Apparently the German Admiralty is determined to spare no effort to prevent the revictualing of the English armies operating in Asia and the Allied army at Saloniki, as no less than twenty submarines are now stationed between the southern coast of Sardinia and the eastern Aegean.

Mail Boats Unmolested.

While an Austrian submarine commander is ready to sink anything from an outgoing emigrant steamer, with women and children on board, to a Red Cross hospital ship, yet one steamer he will never sink and that is the mail boat plying between the continent and Sardinia.

Various reasons have been offered to explain this fact. One is that, as Sardinia is the concentration camp for the Austrian civilian population that preferred to Austria, the Austrian Admiralty has instructed the sub-

marine commanders to let the mail boats alone because they bring the Austrian prisoners' mail.

Another story is that one day the commander of an Austrian submarine speaking Italian, landed in a deserted small Sardinian port and bought fruit and vegetables. He was recognized just before departing, but instead of shooting him the Mayor of the town preferred to warn him not to sink the mail steamers taking some Sardinian soldiers, as for every soldier drowned five Austrian prisoners would be disembowed. And a Sardinian is known to keep a promise of this sort.

Clear Your Skin in Spring.

Spring house cleaning means cleaning inside and outside. Dull pimply skin is an aftermath of winter inactivity. Flush your intestines with a mild laxative and clean-out the accumulated wastes, easy to take, they do not gripe. Dr. King's New Life Pills will clear your complexion and brighten your eye. Try Dr. King's New Life Pills to-night and throw off the sluggish winter shell. At druggists, 25c.

CONSTANTINE ARRIVES AT MESSINA, SICILY

Rome, June 17 (via Paris).—A dispatch to the Giornale D'Italia says former King Constantine, of Greece, arrived at Messina, Sicily, Sunday morning and was expected to leave immediately for Switzerland.

The former King and his party, consisting of Queen Sophia, the Crown Prince, other members of the Royal family and several Greek dignitaries, arrived on the Greek transport Sphacteria, which was escorted by Italian, French and British torpedo boat destroyers and two small Greek transports. Both Constantine and his wife suffered from seasickness during the passage, which was a rough one, especially off Cephalonia.

U. S. TROOPS HEAR STRANGE TONGUES

PERSHING AND SOLDIERS IN
FRANCE GETTING NEW
EXPERIENCES.

Paris, June 17.—The American enlisted men who came to France with Maj. Gen. Pershing are having experience with foreign habits, languages and nations which indicate what the main body of American troops will find when it arrives. The Americans are quartered at the Pechiere Barracks, a huge quadrilateral on Place St. Augustin, one of the central locations of Paris. There are housed troops from all the Entente Allied nations, including Russians, Serbians, Belgians, Rumanians, Canadians, Australians and New Zealanders, with sixty American troopers, engineers and automobile drivers among the latest arrivals. The vast central court presents a strange sight in the mingling of the uniforms and flags of the various nations.

Each contingent has its own drills and its own living and eating quarters, but when the men are off duty the court is crowded with the soldiers, speaking many languages and attempting to make themselves understood with signs. The American troops are on French military rations which they like better than American or British rations, for in addition to an abundance of well-cooked food they embrace the regular French allowance of wine which, however, may be discontinued when the American rations are established.

The chief novelty for the Americans is the continental breakfast, restricted to bread and coffee. Lunch and dinner are served in courses, with plenty of meat and vegetables. The meatless days do not apply to the military, as the French policy is to limit the restrictions on meat, sugar, etc., to civilians in order that the fighting forces might be kept up to the full measure of energy.

The sleeping quarters are plain and comfortable, with good beds, clean sheets and ample sanitary arrangements. The Americans are on a regular schedule, with reveille at 6 o'clock in the morning, breakfast at 7, inspection at 8 and then a round of duties, concluding with taps at 10 p. m.

Sour Stomach.

This is a mild form of indigestion. It is usually brought on by eating too rapidly or too much, or of food not suited to your digestive organs. If you will eat slowly, masticate your food thoroughly, eat but little meat and none at all for supper, you will more than likely avoid the sour stomach without taking any medicine whatever. When you have sour stomach take one of Chamberlain's Tablets to aid digestion.

CASTORIA**

THOUSANDS SEE RAIDER'S FATE

AS ZEPPELIN FALLS IN FLAMES
BRITISH THROGS GIVE
CHEERS.

TWO AIRCRAFT ATTACK

Battle Lasts 30 Minutes, Small Damage Done By Night Hawk Visit.

London, June 17.—Two persons were killed and sixteen injured in last night's raid, during which a Zeppelin was brought down. The following official report of the raid was given out here to-day:

"Last night's air raid was carried out by two enemy airships. One airship crossed the Kentish coast at about 2 a. m. and dropped six bombs on a coast town. According to the latest police reports, two persons were killed, sixteen were injured and a large number of houses were damaged.

"The second raider attacked the east coast town of West Anglia at about 2:30 a. m. She was heavily shelled by guns of the anti-aircraft defense and driven off. It is probable she was damaged by gunfire. Shortly afterward this raider, after dropping a number of bombs in open places, was engaged and brought down in flames by a pilot of the Royal Flying Corps. The airship was destroyed. There were no casualties or damages in West Anglia."

Fight Lasts Half Hour.

A dispatch from an East Coast town says that thousands of persons witnessed the destruction of the Zeppelin. The attack by anti-aircraft guns on the dirigible lasted fully half an hour, and people issued from their houses half-dressed to watch the event.

When the black object drifting across the sky from the southeast to northwest was seen to burst in flames the spectators cheered tumultuously. Pedestrians and cyclists dashed off in the direction of the fallen airship, but owing to the unexpectedly long distance, failed to succeed in locating the Zeppelin, which fell a few miles from the coast. It had first been winged by a land gun and was then finished by an airplane, which the Zeppelin fought to the last with her guns.

All of Crew Killed.

The dirigible dropped in a field of corn, far from any habitation, and was completely destroyed. All of the crew was killed and their bodies badly charred. Some of the men appeared to have jumped from the doomed airship. Doctors hurried to the spot, but their services were needless.

The British airman who attacked the Zeppelin descended nearby unhurt. According to the story of an inspector who witnessed the affair, searchlights enabled him to follow the movements of the Zeppelin and the attacking airman. The Zeppelin twisted and turned in an attempt to escape or beat the airplane off, and the machine gun fire of the dirigible was heard distinctly. Presently another airman came upon the scene, and the Zeppelin continued to zigzag in an endeavor to head out to sea, but the first airman held to his quarry, and within a few minutes the end came.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & Co., Toledo, Ohio. Sold by all Druggists, 50c.

SAYS AEL NATIONS EAGER FOR PEACE

Zurich, June 16.—A prominent neutral who passed thru here on his way to Rome expressed the conviction that peace will come before the snow flies again.

"The world war has unmistakably reached its last phase," the diplomat said. "Russia is not able to continue the struggle and will conclude a separate peace, if the Allies refuse to change their war aims. The elimination of the Russian giant will change the entire situation."

"With Russia out of the fight it is very doubtful that France and Italy can be kept in line. The governments of these two countries are anxious enough to continue, as they are completely under the domination of England, but the people do not want another winter of war, if the terrible slaughter can be ended quickly on the basis of the new Russian

program, 'peace without annexation and indemnities.' This slogan has caught the masses, not only in Russia, Germany and Austria-Hungary, but also in the other Entente countries. The peace sentiment is everywhere and can not be subdued again by England and the allied governments.

"Even the British people are beginning to think that a compromise restoring the 'status quo ante' would be preferable to more sacrifices and suffering and the possible destruction of the entire English merchant fleet by the German submarines. The peace sentiment is growing everywhere with the exception of the United States."

MANY SPY SUSPECTS IN BUFFALO DISTRICT

Buffalo, N. Y., June 18.—Police and other authorities are hard at work along lines that indicate they have discovered a number of possible spies operating thruout Western New York, with headquarters in Buffalo. The thoro cleaning out now under way in the foreign sections of the city and an order that considerably "tames down" some of the socialistic and other organizations' meetings, were inspired, it is understood, by advices that conspiracy plots have been undertaken in this territory.

The first haul by the police was a group of 150 "no-work" advocates, all of whom were openly opposed to war and were agitating peace sentiment along the water front and big industrial sections for weeks. Leaders of this group were sent to the penitentiary.

Business Scholarship.

TO DRILL FOR OIL.

W. D. Shira Says Outfit Is Now On The Road to Hodgenville.

That the sound of an oil drilling outfit may soon be heard in LaRue county, bringing with it dreams of wealth to many, is indicated by the statement of Mr. W. D. Shira, of Butler, Pa., who has obtained a large block of leases in the county. Mr. Shira was here this week seeing to the recording of his leases.

"Tell anybody who wants to know," said Mr. Shira, "that I am going to drill the first oil well in LaRue county, and that machinery for drilling has been shipped and will arrive at Hodgenville in a few days."

The machinery will be taken to a point north of town, where Mr. Shira expects to make his first attempt to strike oil.—LaRue County Herald.

3,000 JEWS COMPELLED TO EVACUATE JAFFA

Boston, June 18.—Details of the recent evacuation of Palestine have just been received by the Boston branch of the provisional committee for general Zionist affairs. The cable in part follows:

"Between 8,000 and 9,000 Jews were compelled to leave Jaffa. Of these more than 3,000 are now in Lower Galilee; more than 1,000 Petach Tikvah, the remainder having been dispersed in the colonies of Judea and Samaria. Thirty Jews have received special permission to remain in Jaffa. Only 600 persons were compelled to leave their farms. The deaths incidental to the evacuation were due to insufficient nourishment and the hardships of the journey. In order to take care of the refugees along cottages are being erected and if sufficient funds are forthcoming public works will be started in order to help them. Jerusalem has not been evacuated."

The Rocky Mountain Season.

Notwithstanding the war, a larger patronage of the Rocky Mountain National Park is expected this year even than last, when 86,000 persons visited it and its beautiful valley gateway, Estes Park. The hotels, boarding houses, and public camps which then were crowded have all been enlarged. Even with an increase of many times in patronage, there will be no sense of crowding in the parks 400 square miles of valley and mountain fastness.

During the winter Congress has enlarged the boundaries of the Rocky Mountain National Park by adding more than 40 square miles of area upon the Estes Park side. The Twin Sides and Gem Lake are now in the national park.

Bad News For Wilhelm.

This will be dismal news for the Kaiser. His brother-in-law and obedient servant chased from the throne, a country that has materially aided in the execution of his design gone over altogether to the enemy, another foe probably soon to be in the field and at a dangerous point.—New York Times.

TO TOURISTS.

This season will see the opening to the public of an American water spectacle of such extraordinary novelty and beauty that its eventual worldwide celebrity seems an easy prophecy. The Waterwheel Falls of the Yosemite National Park have probably been seen by less than a thousand persons, all told, since their discovery by white men; no doubt they were a familiar sight to the Indians of early days who considered the Tuolumne Canyon one of the safest of their fastnesses.

The Tuolumne River is one of the finest of the many trout-haunted streams which flow from the snowy hollows of the High Sierra. It sings and roars by turns its sinuous way from the high places down into and through the celebrated Hetch Hetchy Valley to rest eventually in the Pacific. Its rush of several thousand feet into the depths of the Hetch Hetchy, which valley, by the way, its waters originally carved in the living granite, constitutes one of the most remarkable spectacles in the remarkable Sierra.

The Tuolumne Canyon here is wild beyond description. The river's bed slants sharply for several miles. Rushing with gathering power, the stream leaps over precipices and foams down long, sharply tilted granite slopes. Here are found the Waterwheels. The swift current, striking rock projections lying across the granite slopes, rises fifty feet in air and describes long sweeping arcs of foam before again joining the rushing river. The spectacle is one that fills the beholder no less with astonishment than with enthusiastic admiration. The larger Waterwheels are extremely impressive.

The reason so few persons have seen the Waterwheels is that the passage down the Tuolumne Canyon is one of extreme difficulty. The hardy campers of the Sierra Club, who for years have maintained a camp at Soda Springs in the Tuolumne Meadows, have been their principal visitors; it is they who have made known their unique beauty to the world. One motion picture only has been made of them.

Last year the Department of the Interior built a trail over the White Cascades in the Tuolumne Canyon as far as the top of the Waterwheel Falls. Here the funds were exhausted, leaving the most strenuous part of the climb without a trail. The completion of the trail past the Waterwheels and through the entire canyon to the Hetch Hetchy Valley will be attempted this season.

Cyclone Freaks.

The cyclone last week played some queer freaks. After blowing down their home, Mr. and Mrs. Herbert Crutcher and one of their sons, were picked up and dropped into their garden. Mrs. Crutcher when found was lying with her head upon her husband's breast. Two of the children, after the cyclone had removed the floor of their home from its foundation and dropped it some distance from the foundation were

found beneath it, only slightly injured.

A farmer near Sonora, found several written receipts upon his farm which had been blown all the way from Morgantown and Mühlenburg, a distance of one hundred miles.

A woman near Arch was gathered up in the funnel of the cyclone and every stitch of her clothing torn from her body, with the exception of her shoes and stockings, before she was killed by the fall from the clouds.—Elizabethtown Mirror.

THE LADIES' HOME JOURNAL, THE SATURDAY EVENING POST and THE COUNTRY GENTLEMAN wish to secure the spare time of a man or woman to act as local representative in Hartford and vicinity, looking after the renewals of their many subscriptions in this section, and introducing these publications to new readers. Payment will be made in salary and commission. Previous experience is desirable but not essential. For details address, with references, Box 654, THE CURTIS PUBLISHING COMPANY, Independence Square, Philadelphia. 1712

GERMAN U-BOAT SINKS BIG FRENCH STEAMER

New York, June 19.—News of the destruction of the big French steamer, Mississippi by a German submarine, with a loss of one of the merchantman's crew, was brought here by officers of a British freight vessel that arrived from a French port.

The Mississippi, of 6,677 tons gross, was torpedoed and sunk about 145 miles out from the port of Brest, France, on June 2, according to officers of the British ship which rescued forty-seven officers and seamen from open boats. They had been afloat only a short time.

ITALY'S FORCES

Join Hands With British In Palestine.

Chicago, June 18.—An Italian organ grinder early on his rounds disturbed the late slumber of members of the Italian mission to-day. The visitors took it good naturedly and the disturber and his monkey went away the richer by several small silver pieces.

Enrico Arlotto, head of the mission, was greatly interested in an Associated Press dispatch stating that an Italian force had joined the British in Palestine.

"That is significant of the way the Allies are working together," he said. Members of the mission placed a wreath on the statue of Lincoln in Lincoln Park. A similar tribute was paid Garibaldi yesterday.

Lassen National Park.

Many persons who desire to see volcanic phenomena will visit the new Lassen Volcanic National Park this season. A month after Congress made it a national park last summer the volcano broke into eruption, and the region is still actively disturbed.

Lassen Peak is in northern California. It is one of the celebrated peaks of the Cascade Range, which include Mount Barber, Mount Hood, Mount Shasta, and what was once Mount Mazama but is now Crater Lake. Few of the ice-plated volcanoes of this range are extinct in a geological sense of the word; several of them have areas on their sides where snow melts or have hot springs in their neighborhoods; Lassen Peak is the only one actually active within history.

American dealers in the last three months have purchased most of the goatskins in Aden, Arabia. Prices have increased from \$6.50 to \$12.33 a score.

HOLLAND QUEEN'S SPOUSE PRISONER

GERMAN CONSORT OF DUTCH MISTRESS VIRTUAL WAR CAPTIVE

London, June 16.—The husband of the Queen of Holland is to-day virtually a prisoner of war.

His captors are his wife's own subjects.

All his actions are under surveillance. Many parts of his wife's kingdom are barred against him.

All this is because the prince consort, who is a German, violated Dutch neutrality by smuggling three German army officers out of internment camps back to their native land.

The Hollanders, including their Queen, fear he will try it again.

The prince consort, before his marriage, was Duke Heinrich Vladimir Albert Ernest, of Mecklenburg-Schwerin.

The Queen met him first while on a visit to the Kaiser's palace at Potsdam. The Kaiser aspired to see his second son married to the Dutch Queen.

Nation Is Embarrassed.

The prince consort's Germanic sympathies have been manifested many times since war began.

The smuggling out of the German officers was the final act, compromising the Dutch nation to a point that required drastic action.

Reliable reports describe the smuggling as highly dramatic. The three officers were old-time friends of the consort. Without violating Dutch neutrality they could not leave Holland. They appealed to their old friend, the prince consort. He promised help.

"Meet me at midnight tonight," he told them, naming a secluded spot. There they were met by the prince in his closed automobile.

Quickly the four sped toward the border, lights low and full power on. "Halt!" cried a Dutch sentry as the border was neared.

The prince consort was all indignation.

"Who are you to stop me!" he cried in passionate indignation.

"I am your superior officer and the prince consort! Stand back quickly or it will be worse for you! I am on your Queen's business."

Allows Auto To Pass.

The sentry was all apology. He saw none in the car but the prince consort. He feared to halt the royal equipage longer, and allowed it to pass.

Quickly then the big machine sped over the border, discharged its three German officers and sped home.

Not for some days was the secret learned.

Then France and Britain were aroused and made protest to the Holland government. "Something must be done, and this must not happen again." Holland's position was delicate. The protests were diplomatically worded, but they were stern.

So the prince consort has been practically deprived of his liberty.

Queen Wilhelmina is as determined as any there shall be no more such pro-German operations in her country.

Long ago it was reported the queen and her husband were not getting along well together, and it was even said the German husband had slapped his royal wife.

Maybe, the comment runs, the queen finds it pleasant to have such good excuse for giving a twist to the turbulent German temper that was back of that blow long ago.

Children Cry FOR FLETCHER'S CASTORIA

AVIATOR BATTLES, CLAD IN PAJAMAS

Nottingham, Eng., June 16.—The late Capt. Albert Ball, one of the youngest and most successful of British fliers, in letters received by his father, former Mayor of Nottingham, just before the aviator's death, told how he went up to fight in the air with nothing but his pajamas on.

"On a few occasions," he wrote, "I haven't had time to put my clothes on, and I've gone up in my pajamas. I was jolly cold, I can tell you, but, unfortunately, I can't pretend I have ever brought down a lot of Huns you have to be patient, and practically live in the air. Sometimes you make ten flights in one day and never get a single flight."

Ball also told of a fight with a formidable opponent when neither could get an advantage on the other: "We kept on firing until our ammunition was gone," he said, "and when we could not fire any more we burst out laughing and flew together side by side for a little distance. He was a real sporting Hun like Boleke. I should have been sorry if I had killed him and I think he would have been sorry if he had killed me."

Forty-two Germans fell victims to

the young airman's bravery, but after bringing down the fortieth, he wrote: "I am getting tired of living to kill I begin to feel like a murderer, but I feel that God is taking care of me."

Has a Good Opinion of Chamberlain's Tablets.

"Chamberlain's Tablets are a wonder. I never sold anything that beat them," writes F. B. Tressey, Richmond, Ky. When troubled with indigestion or constipation give them a trial.

CZAR DRUGGED, LOST WILL, SAYS PRINCE

Copenhagen, June 16.—Dramatic revelations concerning the events in Russia immediately before the revolution are contained in an interview with Prince Yusupoff, at whose home in Petrograd the notorious monk, Rasputin, was assassinated.

Prince Yusupoff says that an important part was played in the imperial court by Dr. Badmaiev, "a great charlatan, a doctor from the Mongol tribe of Buriats, who claims to have learned the mysteries of medicine in Tibet," and he declares "with certitude" that Nicholas II was drugged by various potions prepared by this man, and that Rasputin also played a part in the affair.

"The Czar," he adds, "was latterly half-mad, and his will no longer existed. For all affairs of State he took counsel exclusively with the Empress, who led him toward the abyss; but Badmaiev acted with such precautions as to leave no trace.

"At court there was a veritable nightmare. If the revolution had not broken out from below it would have come from above, for it was evident that the State was governed by a handful of men."

Whooping Cough.

In this disease it is important that the cough be kept loose and expectation easy, which can be done by giving Chamberlain's Cough Remedy. Mrs. P. H. Martin, Peru, Ind., writes, "My two daughters had whooping cough. I gave them Chamberlain's Cough Remedy and it worked like a charm."

GEN. CHANG HSUN IS DICTATOR IN CHINA

PRESIDENT LI YUAN HUNG IS LITTLE MORE THAN FIGUREHEAD.

Peking, June 16.—Gen. Chang Hsun now is dictator, President Li Yuan Hung being little more than a figurehead. The insurgents are calling a convention at Tien Tien for the purpose of forming a Provisional Government headed by the dictator, who is expected to act as President and Premier.

Gen. Chang Hsun's motives are obscure, but it is believed he is attempting to obtain from the former leaders of the Manchu dynasty an agreement for restoration of the empire. He has urged the President to form a Cabinet as soon as possible, suggesting that a Provisional Council similar to that in Russia be established and that a declaration of war against Germany be then made.

Southern leaders who are congregating in Canton assert the President signed the mandate for dissolution of Parliament under pressure. They say they will fight for maintenance of constitutional rights.

MOTHERHOOD WOMAN'S JOY

Suggestions to Childless Women.

Among the virtues of Lydia E. Pinkham's Vegetable Compound is the ability to correct sterility in the cases of many women. This fact is well established as evidenced by the following letter and hundreds of others we have published in these columns.

Poplar Bluff, Mo.—"I want other women to know what a blessing Lydia E. Pinkham's Vegetable Compound has been to me. We had always wanted a baby in our home but I was in poor health and not able to do my work. My mother and husband both urged me to try Lydia E. Pinkham's Vegetable Compound. I did so, my health improved and I am now the mother of a fine baby girl and do all my own house work."

—Mrs. ALLIE B. TIMMONS, 216 Almond St., Poplar Bluff, Mo.

In many other homes, once childless, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

Write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice—it will be confidential and helpful.

FISCAL COURT GIVES INCREASE

MAGISTRATES AT LATE SESSION RAISE PRICE FOR LABOR.

At the last term of the Ohio County Fiscal Court, which convened in Hartford, on Wednesday, June 6, 1917, all the Justices being present and John B. Wilson, Judge, presiding, the following resolution was unanimously adopted as the order of the court:

Whereas, prices for labor, materials and provisions have greatly advanced within the last twelve months, and because it is our desire to co-operate as far as we possibly can with our limited means in the betterment of the roads of the county, and in order to prevent the probable discontinuance of several rural free delivery mail routes in this county because of the almost impassible condition of some of the roads, and also to make unnecessary, as far as can, indictments and prosecutions for willful neglect, failure or refusal of overseers and road hands to perform their duties with reference to road working, and finally for the general convenience and benefit of the people of Ohio county in the use and enjoyment of good public roads to which the people are entitled and which we believe can be had if everybody will do all of his duty all the time.

Resolved that it is the judgment of this court that the price of \$2.00 a day should be paid for the use of teams on road for plowing or scraping, and this sum should be paid to those who have already worked their teams during the year 1917 and to those who may hereafter furnish teams during this year and that this order be given general publicity throughout the entire county for the purpose of advising road overseers and road hands of this action of the court and for the further purpose of assuring them of the court's willingness to do all within its power consistent with its financial resources and with the proper and economic management of the county's fiscal affairs to bring about and promote better system and condition of public roads in Ohio county, and that the County Attorney distribute and circulate notices and other information of this action of the court and assist in every practicable way in promoting and bringing about the purposes and results sought by this action.

All of which is now ordered. In obedience to the duty imposed upon me by the above order, I have caused these hand bills to be published and have sent them to every section of the county. I ask that they be posted in conspicuous places and given all possible publicity.

There is only a five cent to the One Hundred Dollars road tax paid in this county, and that all goes to the State Road Department. This county, therefore, under the present condition is compelled to rely upon the people to work the roads. It will co-operate and assist in every way it can. The county is to build all bridges 20 feet and over in length and is to furnish all material and pay for the hauling necessary for the construction of bridges under 20 feet. It will buy such strips of land as are needed for right of way where land can be bought at a reasonable price in order to put the road on better ground. It will do anything else it can do that is authorized by law within its means. However a recent decision of the Court of Appeals makes it necessary for Ohio county to pay off as quickly as possible a very large part of its indebtedness in order that it may keep its expenses and indebtedness within the amount of its annual income. The peace, good order, convenience and welfare of Ohio county and its people, requires that there be a spirit of co-operation between the county, its officials and its people in bringing about a better condition of the county roads. If we will all do our whole duty from now on we will soon have better roads everywhere. It is hoped that this may be done.

June 9, 1917.

A. D. KIRK,

County Attorney Ohio County.

GERMANS SEEK RICH PRIZE NEAR PANAMA

New York, June 17.—Americans financially interested in the island of Margarita, off the coast of Venezuela, today confirmed the recent report that Germany was seeking a concession there, probably for a submarine base. The story was officially denied in Berlin, but this denial is characterized here as "diplomatic."

In fact, Germany's negotiations for the island started before the war and were referred to in a letter written by the American Consul at La Guayra, Venezuela, January 29, 1914.

The island of Margarita has 70,000 population. Seventy per cent of coastwise shipping of Venezuela is

owned there. Pearl fishing is also important. But the principal attraction is the magnesite deposits, which are now controlled by J. I. Mather, of Philadelphia, and other Americans who won out in the contest with the German interests.

NOTICE.

We again call the attention of our readers to the fact that The Republican will publish no communications unless signed by the author. Few weeks pass that anonymous articles are not received and it is not our desire to hurl newsy items into the waste basket. This anonymous communication rule is stated each week at the head of the editorial column and must be adhered to. Requests that names be omitted from print are complied with, but the manuscript must bear the writers' signature.

THE EDITOR.

WOMAN THUG NEW OHIO WAR PRODUCT

Cleveland, Ohio, June 16.—Is war taking away the thugs? Must women do their work? Police here think so, after arresting four women in an alley who had lured a male victim into the dark, where they beat him and took his money.

Eye For Business.

Medicus has a patient who is very nervous and inclined to exaggerate the importance of chance remarks. He reports that he had attended this lady (did we mention that she was a lady) for a minor trouble and for only a few days when one day he found her in tears.

"What's the trouble?" asked Medicus.

"I think I am going to die," responded the patient.

"Where did you get that idea?"

"Well, Mr. Blank was in to call last night with his wife. And when they left he said that he hoped the next time he saw me I'd be all straightened out."

"Well?"

"Well? Why, Mr. Blank is an undertaker."

CARS WILL RUN ON FIVE LEVELS

GOTHAM'S TRANSIT SYSTEM EQUALS SKYSCRAPER IN HEIGHT.

New York, June 16.—Twelve tracks on five different levels and half of them underground on three different levels, is the transit marvel now nearing completion at Borough Hall, Brooklyn.

The whole complicated structure amounts to a skyscraper seven stories in height, but buried in the earth except the top third or so.

Over the street rumble the four tracks of the Brooklyn elevated. On the street level are two busy trolley tracks on an immense wagon and motorcar traffic.

Beneath the street is the usual maze of water, electric, gas, telephone and sewer conduits, and right below will pass the swift Manhattan-bound trains of the new Interboro lines. The track of this new line for trains going in the opposite direction is on the next lower level, and partly under the Manhattan-bound line; while just to the north on this second, underground level are the two tracks of the "old subway."

Carving Out Tubes.

Finally, seventy feet below the surface, hundreds of workmen are carving out the two tubes of a new Brooklyn Rapid Transit Company line.

All the underground lines pass right under the greatest harbor in the world to Manhattan, while the elevated trains and surface cars are carried to the island over the old Brooklyn Bridge.

The engineering difficulties of the Borough Hall construction are immense because the formation is soft sand and silt instead of the rock found on most of Manhattan Island. Important high buildings are nearby, which must be carefully protected from caving in.

The man directing the work is Michael L. Quinn, who started railroad construction carrying a water bucket at the age of 14 years.

Bad Cough? Feverish? Grippy?

You need Dr. King's New Discovery to stop that cold, the soothing balsam ingredients heal the irritated membranes, soothe the sore throat, the antiseptic qualities kill the germ and your cold is quickly relieved. Dr. King's New Discovery has for 48 years been the standard remedy for coughs and colds in thousands of homes. Get a bottle to-day and have it handy in your medicine chest for coughs, colds, croup, gripe and all bronchial affections. At your druggist, 50c.

FRIDAY JUNE 22

Can anyone tell us what has become of Col. William Jennings Bryan? Excuse me, but I forgot that this is the Chautauqua season.

There is one citizen in the United States who answers to the name "Teddy" who can fold his arms upon his chest and exclaim, "He still keeps me out of war."

With every available cold storage in New York running over, things to eat can hardly be purchased. Cold storage plants should be emptied and the penitentiaries filled.

If 49 subscribers could have seen their way clear, to come across with that one spot they owe, and one other could have paid up for 9 months, we could perhaps now be the possessor of one of those \$50 Liberty Loan Bonds. "But they didn't and we ain't" so what's the use?

A soldier hasn't any chance whatever to buy a drink of any sort of intoxicant, yet with a \$60.00 tax per each 100 pounds of anything except water, going into the makeup of all sorts of stimulating beverages, the average Kentucky Colonel would be just about as well off two or three years hence if he were a soldier.

At the present writing the situation in Russia appears to be better than at any time since Nicholas was dethroned. The appointment of that wily statesman and diplomat, Elihu Root upon that commission to Russia, by the administration, has perhaps done more for the Allies than any other single, like stroke for quite a long time. Mr. Root is beyond doubt one of the greatest, if not the greatest diplomat in America. We may be presuming entirely too much, for Ex-Secretary Root, but if reports are to be at all relied upon, we know that whereas the outlook in Russia "was altogether hopeless, now it is hopeful. But in Russia, by the time this is inked, something else may happen.

SCRAPS ON PAPER.

Scraps and arguments between newspapers, such as these issued in this place, over matters of very little importance to the general public, as a rule, obtain for the papers herein indulging, but little more than adverse comment and criticism. What our readers most desire is local and county items of interest, interspersed with as much of the leading late news as we are, with our limited ability, able to give, and to the average editor, to my mind at least, there can be nothing more distasteful than a country newspaper scrap over some fool thing that does not in the least, interest patrons of the offending sheets. Occasionally, there are some who think their position invulnerable and attack proof from without, who just won't be satisfied except they are digging some one in the short ribs, or "nagging," and after so much of that stuff is borne a scrap is started and it generally happens that both warriors wish it had been otherwise, or not at all. We entertain the best wishes for every one and do not desire to wound the feelings of any. We have our notion and ideals of honor and would esteem it beyond price, if we could justly merit the honor and respect of those within the very small circle in which we move, both as a country newspaper and as an individual, at no time desiring to pose as a member of that class known as "the holler than thou."

MOTORCYCLE ENDURANCE RUN SUNDAY, JUNE 24

Sunday, June 24, is the day set by the Owensboro Motorcycle club for its big endurance run. The distance will be one hundred miles over rough and rugged country, and the rate of speed the motorcycle riders will have to average will be twenty miles an hour.

The riders will leave Owensboro one minute apart and will go through

Philpot, Whitesville, Fordsville, Dundee, Hartford, Livermore, Calhoun and back to Owensboro.

The starting point will be in front of the court house on Third and St. Ann streets, where each rider will check out one minute apart, the first one leaving at 9:30, and is due at Whitesville at 10:18, Fordsville at 10:51, at Dundee at 11:24, Hartford at 12:06, and due to leave Hartford at 1:06, arriving at Livermore at 2:06, Calhoun at 2:33, and back at Owensboro at 3:39. At each one of the above towns the rider will be checked and his riding time recorded, and the rider making the most perfect score will be awarded a handsome engraved medal and the rider having the worst luck on the run will be presented a medal also.

The rider will have dinner in Hartford, and the endurance run is open for all makes of motorcycles.

Henry Pardon, the local Indian motorcycle agent, will ride the route on Wednesday to learn the road thoroughly and make arrangements at each town to have the boys' time recorded as they pass through.

The last motorcycle endurance race ran over this course was held in July, 1915, and was enjoyed very much by the people living on or near the road the motorcycles will travel, as at every cross-road there were large crowds of people awaiting to see the riders pass, and they cheered each rider as he passed.

The following riders have agreed to enter: Henry F. Pardon, Indian; J. W. Ament, Indian; D. G. Hines, Indian; H. C. Miller, Indian; Oliver Pardon, Indian; Orien Hite, Indian; Everett Miller, Indian; Frank Barkhaus, Indian; Herman Spurrier, Indian; Arthur Lee Ray, Harley-Davidson; Bryant Crisler, Indian.

WANT CAMP NAMED FOR GEORGE ROGERS CLARK

The Kentucky Society of the Sons of the American Revolution have offered to donate an ambulance to the Red Cross, and have sent the following letter to Secretary of War Newton D. Baker, suggesting that the army encampment at Louisville be named in honor of Gen. George Rogers Clark:

"The army cantonment near Louisville lies near Mulberry Hill, the former home of Gen. George Rogers Clark, the conqueror of the Northwest territory in 1778. Our Government has never erected a monument to commemorate his great achievement, and the Board of Managers of the Kentucky Society of the Sons of the American Revolution in session today wish to suggest that the cantonment be named in honor of that great man, especially since next February will be the centennial anniversary.

"Yours very truly,
"FRANK M. THOMAS, President."
—Louisville Herald.

DEATH OF MRS. LUCY S. CROWE.

After an illness of more than three months, Mrs. Lucy S. Crowe passed away at 12:45 o'clock to-day. She leaves a sister, Mrs. E. W. Hughes, of West Second Street, at whose home she died, and a brother, Robert C. Smith, of Orange, California.

She was the daughter of Rev. William O. and Mary Wallace Smith and was born February 9, 1844, at Owensboro, Ky. She was educated at Owensboro and at the Greenville Institute, of Greenville, Ky.

In 1868 she became the wife of Rev. George Condie Crowe, a Presbyterian minister and a native of Nova Scotia. Mr. Crowe was a teacher as well as a minister, of much ability. For a number of years he and Mrs. Crowe taught in Kentucky and Tennessee.

After the death of Mr. Crowe in 1896, Mrs. Crowe continued her work of teaching, interrupted only by the devoted care she gave her mother in the latter's declining years.

For several years she had been teaching at Greenville, Tenn., but two years ago she came to Madison to make her home with her sister. During that time she has made many friends. Possessed of a fine intellect, she was also a great reader and took a lively interest in current events.—Madison (Ind.) Courier.

Note.—Mrs. Crowe once lived in Hartford and taught a private school.

GOVERNMENT LOOKING INTO RECENT MARRIAGES

Chicago, June 20.—Tabulation of the names of all who have obtained marriage licenses here since the declaration of war was begun to-day by agents of the Federal Bureau of Investigation. The list will be used to determine if the recent marriages are the basis for claims of exemptions in regulation records.

Five thousand marriage licenses were issued the week of the declaration of war. The War Department has made known that recent marriages would receive little consideration in determining claims for exemption.

MEXICO SHOULD ENTER THE WAR

COUNTRY SHOULD JOIN ALLIES, DECLARE 23 CIVILIANS IN NEWSPAPER.

Mexico City, June 19.—El Universal, which is probably the most prominent newspaper in Mexico, will print tomorrow statements from twenty-three prominent civilians of Mexico, advocating severance by Mexico of relations with Germany and asserting that Mexico's place in the war is on the side of the Entente Allies.

The headlines of the article in which the statements are incorporated say it is to the interest of Mexico to sever relations with Germany, and that the Latin-American ideals of Mexico must incline her to the side of the Allies rather than toward ideals of Pan-Germanism, absorption and militarism, as expressed by Germany.

The article says the opinions printed are those of some men who think in Mexico and for Mexico, and that it is the consensus of opinion of these men that Mexico can not maintain neutrality, but must sever relations with Germany in order to remain true to the ideals for which the country has struggled during the last six years.

The statements in general show close unanimity of opinion. Some of them go so far as to say that in order to uphold the ideals of justice which actuate Mexico the country should immediately declare war on Germany. Others assert that German intrigues in Mexico offer ample reasons for severing diplomatic relations, adding that Germany is endeavoring to provoke trouble between Mexico and the United States. It is asserted in some of the statements that Germany can not deceive Mexico by offers of money and and end loans, nor by the prospect of recovering portions of Texas, New Mexico and Arizona, lost in 1848.

Mexico, say still others of the statements, can not lend herself or her territory to be the headquarters of a German spy system, the object of which is to work as to lay Mexico and other Latin-American States open to embroilment and especially involve Mexico with the United States and Guatemala.

Among those from whose statements are printed are Rafael Cabrera, Governor of Puebla and brother of Luis Cabrera, Minister of Finance; Marceline Daviles, former Congresswoman; Luis Castillo Ledon, director of the National Museum, and Arnulfo Dominguez Bello, director of the National Arts Museum.

ARCH AT VALLEY FORGE PRESENTED TO STATE

Valley Forge, Pa., June 20.—Marking the site of the encampment of Washington and his army during the winter of 1777-8, a memorial arch, for which Congress appropriated \$125,000, was presented to the State to-day by Champ Clark, Speaker of the House of Representatives, on behalf of the Government. More than a hundred Senators and Congressmen who came here by special train from Washington, attended the exercises.

Gov. Brumbaugh accepted the arch on behalf of the Commonwealth, the transfer being attended with the firing of a salute by Battery C, National Guard, of Pennsylvania. The Sons of the Revolution formed about the arch as a guard of honor, observing their annual celebration in conjunction with the exercises. Patriotic exercises incident to the presentation were under the auspices of the Valley Forge Park Commission and were presided over by William Henry Sayen, president of the commission.

The arch is an imposing structure of marble.

Porter Hunley.

Mr. Porter Hunley, of Echols, died at his home last Friday night. Mr. Hunley succumbed to an attack of pneumonia, superinduced by measles. Deceased is survived by three daughters and one son, Mrs. Ethel Taylor, Misses Olga and Evelyn Hunley and Norton Hunley.

After funeral services conducted by Rev. R. D. Bennett, assisted by Rev. Bogress, at Hopewell on Sunday, the remains were laid to rest at that place.

WELCOME TO RUSSIAN DIPLOMATIC MISSION

Washington, June 20.—Washington opened its arms to the Russian diplomatic mission, headed by Ambassador Boris Bakhmetieff, to-day with warmth and enthusiasm.

Greeted by Secretary Lansing and other officials and escorted through streets lined with cheering people and honking automobiles, the mission was given a welcome expressive of this country's response to the mighty democratic upheaval of Russia.

Having rested during the after-

noon from their five-weeks' trip the visitors dined quietly to-night at the home placed at their disposal. Tomorrow they will pay their respects to Secretary Lansing and go with him to the White House to be received by President Wilson and to present a message from the new Russian Government.

Lieut. Gen. Roop will convey the greetings of the Russian army to Secretary of War Baker.

WOMAN'S CLUB.

Mesdames Glenn and Bean Hostess At Former's Home.

The Woman's Club was entertained Saturday afternoon by Mrs. James S. Glenn and Mrs. Ira D. Bean at the home of Mrs. Glenn in honor of Mrs. H. E. Brown, who will leave this summer for Harrisburg, Ark., to make her future home.

It was the last meeting of the Club for the summer and the annual election of officers took place. The subject of the program for the afternoon was "American Artists."

After the program the members were invited in the diningroom and were seated at a long table which was decorated with sweet peas.

An elaborate two course lunch was served. The president of the club Mrs. J. R. Pirtle, presided and in a charming way called upon Mrs. Henry Carson, who responded with an original poem which was a fitting tribute to Mrs. Brown. Mrs. John B. Wilson next responded, "The Work and Aims of the Woman's Club," and wished Mrs. Brown success in her new home.

Mrs. Brown in a few well chosen words expressed her pleasure and appreciation of the delightful entertainment.

Mrs. J. Ney Foster, Elaine, Ark., was a guest.

The members present were: Mesdames H. E. Brown, J. R. Pirtle, Henry Carson, Rowan Holbrook, J. B. Wilson, T. L. Griffin, W. H. Rhoades, B. W. Napier, Virgil Elgin, Misses Margaret Nall, Mollie Duncan, Lettie Marks.

Notice Candidates.

Candidates for the various nominations must, under the Corrupt Practices Act, keep an account of their expenses while seeking to be their Party's nominee and file a complete report thereof with the Clerk of the County Court 15 days before the Primary Election, which happens to be on July 20th. A nomination without this statement is not worth a penny.

CO-OPERATIVE PEOPLE TO HAVE BRANCH HERE

The following article appeared in the Herald this week and upon request of some of those connected with the concern we reproduce the same in this issue.

Just as soon as sufficient amount of stock is subscribed by the farmers of Ohio County, the American Co-operative Association, which is the business end of the American Society of Equity, will establish a branch house here in Hartford with Mr. S. L. King as manager.

Only farmers will be solicited for members, as the object of the Association is to save its members the middleman's profit on everything they buy and sell, including machinery, food supplies and in fact everything bought or sold on the farm.

The American Co-operative Association headquarters are in Wausau, Wis., and it has branches in Chicago, Ill., St. Paul, Minn., Crawford, Neb., Booneville, Ind., Everett, Wash., Owensboro, Ky., and the one proposed here for Hartford, and owing to the enormous buying and selling power of all the members in all these branches together, the Association is enabled to take the entire output of various factories, mines, etc.

Every member has one vote, as men vote in this Association and not money. The stock is fully paid up and non-assessable, and nobody can buy over \$1,000 worth. Since organization the A. C. A. has paid 8 percent interest on the capital invested.

Mr. Seymour Cohn, who was at the head of the crew of salesmen in Daviess county, where he raised nearly \$30,000 for the Owensboro Branch in the last few weeks, is here in Hartford in charge of the work of raising sufficient funds among the farmers of Ohio county to start the Hartford Branch.

Mr. L. N. Robertson, of Owensboro, Ky., is the field manager of the organization work.

RAIDS ON BORDER TOWNS THREATENED, IS REPORT

Brownsville, Tex., June 19.—Disquieting rumors of another impending raid by Mexicans on Texas border towns caused two detachments of the Fourth Texas Infantry to be dispatched to San Pedro Ranch, ten miles up the Rio Grande River from here, as a precautionary move.

Military authorities have declined to give out any information, but it was intimated to-night that nothing has yet occurred.

Men's Hot Weather Suits, Coats AND PANTS

Don't wait for "Old Sol to force you into one of our light, airy suits. You know from past experience he is going to make it hot for you. Make your selections now before stocks are broken and you can certainly be well dressed and comfortably attired.

Cool clothes of every description. Mohairs in a variety of patterns, as well as the washable Palm Beach.

Men's and Boys' washable Pants in a nice range of patterns and prices.

It is needless to say we can please you. We seldom, if ever, fail. Keep in mind that early purchases along every line means a saving. Duplicates of original purchases are quoted much higher, and we are selling you on this basis of the purchase price. Buy early and keep the difference in your pocket.

SOLUTION OF FOOD PROBLEM WITH U. S.

AM SURE PEOPLE WILL NOT "LET US DOWN" SAYS BRITISH CONTROLLER.

London, June 19.—"In this war, and especially at this stage, food power is co-equal with man power," said Lord Rhondda, the new food controller, in an interview to-day. "The problem of Great Britain's food primarily depends upon the supply, and in the main the solution of the problem of supply lies in America. I am sure they will not 'let us down.'"

Lord Rhondda took over the duties of food controller today and this was his first interview with members of the American press.

"The whole problem of the nation's food supply primarily depends upon the supply," he continued, "and unless we can be assured of food sufficient to enable this and the other allied countries of Europe to carry on the war to a successful conclusion it would be almost superfluous to appoint a food controller. The most perfect system of distribution and the most equitable regulation of prices would be a mere waste of time and effort, unless every measure is taken to keep up the allied food supply."

"For this we depend to a vital degree upon the United States and Canada. No one recognizes that more fully than I do. Before Mr. Hoover left for America I had an opportunity of discussing with him the lessons he had drawn from his wonderful work in Belgium and his plans as to allied food supply."

"In accepting this office one of its few attractions—perhaps its only attraction was the knowledge that President Wilson had asked a man of Mr. Hoover's caliber, experience and understanding of the Allies to tackle in America those problems which have an intimate bearing day by day upon the food situation in this country. I have perfect confidence that the American Congress and the American people will respond to the calls now being made to them."

"I hope I shall not be misconstrued or thought impatient if I say that the sooner your food administration measures are enacted the sooner we

shall breathe more easily. At present our policy and the practical details of our buying are rendered more difficult, more complex, by the uncertainty regarding the future.

"My experience in America before and since the war have given me an unusual opportunity of appreciating the vastness of her resources. If these are organized to their full capacity I am confident the German hope of starving the Allies or of causing civilians unrest by the scarcity of food or high prices is doomed to failure."

"We are doing what we can 'off our own bat' by increasing home production and decreasing consumption, but in the main the solution of the primary problem of supply lies in the hands of our American Allies. I am sure they will not 'let us down!'"

U-BOAT TOLL LARGER THAN PAST SIX WEEKS

London, June 20.—Twenty-seven British ships of more than 1,600 tons have been sunk according to the weekly British summary given out to-day. Five British vessels under 1,600 tons also were sent to the bottom. No fishing vessels were destroyed.

The foregoing figures of British shipping losses as the result of Germany's submarine warfare shows a larger number of vessels sunk than in any of the six preceding weeks. Not since the seven-day period ending April 28 has a greater number of ships been destroyed. During that week fifty-one vessels—thirty-eight over and thirteen under 1,600 tons—were sunk. The heaviest totals since the Teuton submarine campaign was opened in February last were registered in the week ending April 21, when forty steamers of more than 1,600 tons were sunk and fifteen vessels of the smaller tonnage were sent to the bottom.

Since the middle of April when the undersea boat activity recorded its highest toll, 303 British vessels, of which 220 measured more than 1,600 tons, were sunk, the weekly total being as follows:

Week ending	Over 1,600 tons.	Under 1,600 tons.
April 21.....	40	15
April 28.....	38	13
May 5.....	24	22
May 12.....	18	5
May 19.....	18	9
May 26.....	18	1
June 3.....	15	3
June 10.....	22	10
June 20.....	27	5

Millinery

Specials

We are prepared to give you the newest in mid-summer Millinery. If you have postponed getting your spring hat, we can now give you new "SPECIALS" at a very low price.

Mr. Talmage Davis, who has been here for some time recuperating from a severe attack of pneumonia with other complications, sustained while at Connorsville, Ind., some time since has almost completely recovered and will be able to resume his position at an early date.

Misses Ella McKenney of Beaver Dam and Winnie D. Simmerman of this place, left yesterday for Hannibal, Mo., where they go to be the guests of Misses Margaret Peters and

Alma Morwitz, during the next two weeks. Misses Petter and Morwitz will entertain with a house party in honor of their guests.

Mr. and Mrs. J. New Foster and infant daughter, of Elaine, Ark., are guests of friends and relatives here. They came here from Indianapolis, Ind., where they spent a few days with Mrs. L. B. and Miss Alice Foster, mother and sister of Mr. Foster. Prior to his leaving Hartford, Mr. Foster was connected with the Republican.

The name of Dr. A. B. Riley, of Hartford appears in a list of those selected or recommended for the Medical Reserve Corps of the U. S. Army. Dr. Riley will perhaps be called into service at an early date. If called he will report at Fort Oglethorpe, Ga., but in the meantime the Dr. will proceed with his practice in the usual way.

Messrs Nat and John Lindley, L. M. Everly, M. W. Bell and Wat Taylor, of Point Pleasant, Rowan Holbrook, Jas. A. Caldwell, Roy Foreman, S. O. Keown and County Agent, W. W. Browder of Hartford, attended the meeting of the Kentucky Pure-Bred Live Stock Association at Owensboro last Tuesday. Mrs. Nat Lindley accompanied her husband to Owensboro on the above occasion.

Rough River Lodge, No. 110, K. of P., elected the following officers at its regular convention on last Tuesday night: W. H. Rhoads, C. C., W. H. Gillespie, V. C., McDowell A. Fogle, P. W. W. Riley, M. of W., J. F. Gillespie, M. of A., A. Ivy Nall, I. G., and Jno. B. Wilson, O. G. Knights, H. E. Brown, S. T. Barnett and M. A. Fogle, compose the Auditing Committee appointed.

Mr. J. Whitworth of Hardinsburg, representing the High Priest of the Grand Chapter, R. A. M., of Kentucky was here last Saturday to inspect Keystone Chapter No. 110. He also visited the Beaver Dam Chapter. Arrangements are being made for a meeting of the Local Chapter on the third Saturday in July at which convocation it is planned to confer the chapter degrees on a class of several candidates.

SCHAEFER—MARKS

On the 28th of this month at high noon Mr. J. W. Marks of Hartford, will be united in marriage to Miss Mary Carter Schaefer of Toccoa, Ga., at the home of the bride.

A sister Mrs. Tribbie of Hot Springs, Ark., will be matron of honor. Miss Elizabeth Bruce of Toccoa will be brides maid. The groom will be accompanied by Mr. L. A. Crenshaw of Knoxville, La., as best man.

Immediately after the wedding the couple will leave on an extensive tour of the East, including Washington, Atlantic City and Niagara Falls.

On their return home the 1st of July they will visit Mrs. T. S. Marks and family for a few days.
Mr. Marks has made rapid strides as Civil Engineer in his adopted state and we congratulate him on his coming marriage.

Mrs. Mitchell Here.

Mrs. Julia Mitchell, of Owensboro, is visiting friends in Hartford and vicinity. Mrs. Mitchell is 94 years of age, hale and active, and made the trip here by the Owensboro Interurban Bus, a distance of about 30 miles over a rather rough road for a good portion of the route. Mrs. Mitchell formerly resided about 3 1/2 miles from this place and she has a host of friends and admirers who wish for her still many more years of active and enjoyable life.

DRAFT TO START ON JULY FIRST

If there be any readers of this paper who contemplate enlisting in the Regular Army Guard service, they should get busy and do so before July 1st, as the draft system is to be put in force on that day, that is our information at least, and we think it correct.

If any young man within Ohio County desires to enlist and become a member of Co. H., made for the most part of Boys of your acquaintance and of your sort, you yet have a chance to get in, after July 1st, some of those who are fit and have no particular strings attached to them, are morally certain of being forced to join some unit of the Army. Even the Guard will be filled by the draft route after June 30th.

Car Load of Cans.

Mrs. Alonzo Minton, received this week, a car load of cans for the purpose of putting up her tomato crop this season. This is the first time in the history of Ohio county that any single individual has purchased this amount of cans for individual use. Mrs. Minton's husband, now deceased, had for some years been putting up quite a nice lot of tomatoes and these goods have an established reputation, in this section.

DRESS GOODS

WHITE AND COLORED WASH GOODS

The Season's Favorites at Popular Prices

Sport Suiting, white with stripes and figures, at 25c to 50c.

OWENSBORO INTERURBAN LINES

INCORPORATED

STRAY STREAKS.

(By Fluke McFluke.)

Since noticing as how that New York Damsel squiz \$225,000 bold cash, out of that 85 year old Millionair, as salue for a battered heart, caused by said Millionair's failure to keep his promise to marry her, we wish to warn a few of our old friends like Ben Taylor, Harold Holbrook, Amos Carson and Jim Gillespie, to be mighty keeful with their promises. Yes Arthur Kirk too.

We've a friend down in the Point Pleasant community who has an automobile that can outrun a hog, we heard Nat Lindley say so.

And we've another friend whose Tin Lizzie can give a tolkey cards and spades and beat it a city block in a country lane.

A friend of mine told me that Brooksie told a friend's friend of my friend, that if the rupture got right he was going to join the U. S. Aviation Corps, and start for Europe, and that he was not going to stop in France, but was going to fly directly at the throat of his royal highness, otherwise known as "Kaiser Bill."

When we want to make three Bits worth of beef steak go round at our

house I have the Butcher put in a dimes worth of suet out of which to make gravy. My wife eats the steak and she has me eat the gravy, and by that method we have enough for all.

Doc Spot says they are going to keep messing with the Liquor question so that about the first thing a feller knows, Kentucky is not going to be no fitten place to raise nuthin in but camels of the two hunch back species.

Ben Taylor says that Fritz Robertson says there are three ways to get to Hartford from Owensboro, one is to ride all of the way, another is to walk a part and ride a portion of the way, but the last chance to catch a conveyance is to walk all of the way.

Jim & Lem put on two or three rattling good shows while Ed was away last week.

Those Beads Oddly Strung look mighty good to us this week. If we could once and for all drive that Old Maid stuff out of J. H. T's carburetor I think his Spark Plug would work more readily and thru the exhaust we could get more strings in place of private letters to the Editor, which he says, he dares not publish.

Casebier, of Beaver Dam, will take you anywhere at any time, in the easiest manner possible.

Farm Department

Canning Vegetables.

Below we reproduce for the benefit of our readers, some of the many useful and helpful extracts of Farmers Bulletin No. 359, issued by the U. S. Department of Agriculture. The complete Bulletin on vegetable and fruit canning may be had by calling on W. W. Browder, County Agent, Hartford.

Selecting Jars.

Buy a good grade of jar. The best quality usually retails at from a dollar to a dollar and twenty-five cents a dozen. The initial expense may be therefore, somewhat high, but with proper care they should last many years. The annual breakage should be less than 3 per cent on the average. In selecting a jar always give preference to those having wide mouths. In canning whole fruit or vegetables and in cleaning the jars the wide mouth will be found to be decidedly preferable.

Containers For Sterilizing.

The writer uses a tin clothes boiler with a false bottom made of wire netting cut to fit it. The netting is made of medium-sized galvanized wire (No. 16) with one-half inch mesh. A false bottom is absolutely necessary, as the jars will break if set flat upon the bottom of the boiler. Narrow strips of wood, straw, or almost anything of this nature may be used for the purpose, but the wire gauze is clean and convenient.

There are several varieties of patent steamers or steam cookers in common use. These have either one or two doors and hold a dozen or more quart jars. They are ideal for canning, but they are somewhat expensive and can be easily dispensed with. A common ham boiler or clothes boiler with a tightfitting cover will answer every purpose.

Selection and Preparation of Vegetables.

The first step in successful canning is the selection and preparation of the vegetables. Never attempt to can any vegetable that has matured and commenced to harden or one that has begun to decay. As a general rule, young vegetables are superior in flavor and texture to the more mature ones. This is especially true of string beans, okra, and asparagus. Vegetables are better if gathered in the early morning while the dew is still on them. If it is impossible to can them immediately, do not allow them to wither, but put them in cold water or in a cold, damp place and keep them crisp until you are ready for them. Do your canning in a well-swept and well-dusted room. This will tend to reduce the number of spores floating about and lessen the chance of inoculation.

In the following paragraphs are given directions for canning some of the more common vegetables, but the housewife can add to these at will. The principle of sterilization is the same for all meats, fruits, and vegetables.

Corn.

Contrary to the general opinion, corn is one of the easiest vegetables to can. The United States Department of Agriculture has shown that the amount of sugar in the sweet varieties diminishes very rapidly after the ear is pulled from the stalk; therefore in order to retain the original sweetness and flavor it is necessary to can corn very soon after it is pulled—within an hour if possible. Select the ears with full grains before they have begun to harden, as this is the period of greatest sugar content. Husk them and brush the silks off with a stiff brush. Shear off the grains with a sharp knife and pack the jar full. Add salt to taste, usually about a teaspoonful to the quart is sufficient, and fill up the jar to the top with cold water. Put the rubber ring around the neck of the jar and place the glass top on loosely. Be careful not to press down the spring at the side of the jar.

Place the false bottom in the boiler and put in as many jars as the boiler will conveniently hold. Don't try to crowd them in. Leave space between them. Pour in about 3 inches of cold water, or just enough to form steam and to prevent the boiler from going dry during the boiling. It is not necessary to have the water up to the neck of the jars, as the steam will do the cooking. Put the cover on the boiler and set it on the stove. Bring the water to a boil and keep it boiling for one hour. At the end of that time remove the cover of the boiler and allow the steam to escape. Press down the spring at the side of the jar. This clamps on the top and will prevent any outside air from entering. The jars can now be removed and cooled or allowed to stand in the boiler until the next day. On the second day raise the spring at the side of the jar. This will relieve any pressure from steam that might accumulate inside the jar during the second cooking. Place the jars again in the boiler and boil for one hour. Clamp on the top as on the preceding day and allow them to

cool. Repeat this operation on the third day. In removing the jars from the boiler be careful not to expose them to a draft of cold air while they are hot, as a sudden change in temperature is likely to crack them.

After the sterilization is complete the jars may be set aside for a day or two and then tested. This is done by releasing the spring at the side and picking up the jar by the top. If there has been the least bit of decomposition, or if sterilization has not been complete, the top will come off. This is because the pressure on the top has been relieved by the gas formed by the bacteria. In this case it is always best to empty out the corn and fill up the jar with a fresh supply. If canning fruits or some expensive vegetable, however, examine the contents of the jar and, if the decomposition has not gone far enough to injure the flavor, place it once more in the boiler and sterilize over again. If the top does not come off, one may be reasonably sure that the corn is keeping. Corn is often subject to the attack of anaerobic bacteria. The spores of these are sometimes very hard to kill and remain alive even after boiling for one hour. In case any jars spoil, increase the time of boiling to an hour and a half.

String Beans.

Select young and tender beans, string them, and break them into short lengths. Pack firmly in the jar, cover with cold water, and add a teaspoon of salt to each quart. Put on the rubber and top and boil for one hour on each of three successive days, as directed under "Corn." A small pod of red pepper placed in the bottom of the jar will give a delightful flavor to this vegetable.

Eggplant.

Pare the eggplant, cut in thin slices, and drop in boiling water for fifteen or twenty minutes. Drain off the water and pack the slices in the jar. Cover with water and sterilize as directed under "Corn." The slices of eggplant are pliable and may be taken from the jar without being broken and either fried in bread crumbs or made into pudding and baked.

Beets.

Although beets will keep in the cellar over winter, it is very desirable to can them while they are young and tender, as the mature beet is apt to be stringy and lacking in flavor. Wash the young beets, cut off the tops, and put them in boiling water for about an hour and a half, or until they are thoroughly cooked. Take off the skins, cut in thin slices, and pack into jars. Cover with water and sterilize in the manner previously described. If a mild pickle is desired, make a mixture of equal parts of water and good vinegar, sweeten to taste, and cover the beets with this mixture instead of water.

Okra Or Gumbo.

This is a vegetable worthy of more extended culture. Although extensively grown in the South, it is comparatively unknown in the North. It is easily kept and makes a delicious vegetable for the winter. Wash the young and tender pods, cut them in short lengths, pack in the jars, cover with water, and sterilize. Okra is used for soups or stews.

Summer Squash.

Cut the vegetable into small blocks, pack in the jars, and cover with water. Add a teaspoon of salt to each quart and sterilize. It is sometimes preferable with this vegetable, however, to pare off the skin, boil or steam until thoroughly done, mash them, and then pack in the jars and sterilize. If canned in the latter way, it is advisable to steam them for an hour and a half, instead of for an hour, on each of three days, as the heat penetrates the jar very slowly. It is absolutely necessary that the interior of the jar should reach the temperature of boiling water. A jar will usually hold about twice as much of the cooked vegetable as it will of the uncooked.

English Peas.

When prepared and canned in the proper way, peas are easily kept and never lose the delicate flavor that they possess when fresh. Shell the young peas, pack in jars, and sterilize under "Corn."

Asparagus.

Can the young tips only, in the same way as you would corn.

Cauliflower.

This vegetable usually keeps very well, but if the supply for the winter should begin to spoil it may be necessary to can it during the summer. Prepare it as you would for the table pack it into jars, and sterilize.

Carrots and Parsnips.

These, if gathered during the early summer and canned, make most excellent vegetables for the winter. The young plants at that season are not stringy and have not yet developed the strong taste that is so objectionable to some people. Prepare as you

would for the table, and sterilize.

Tomatoes.

Every housewife knows how to can tomatoes. They are very easily kept, even in the common screw-top jar. If one already has on hand a number of jars of this pattern, it is best to use them for preserves or for canning tomatoes and to purchase the more modern styles for canning vegetables. In using the screw-top jars be careful to sterilize them first by placing in cold water, bringing to a boil, and boiling for about ten minutes. The rubber and top should also be immersed in boiling water for the same length of time. Remove them from the boiling water when needed, handling as little as possible. Be careful not to put the fingers on the inside of the top or the inner edge of the rubber. Fill the jar with the cooked tomatoes while steaming hot, put on the rubber, screw on the top firmly, invert it, and let it stand in that position until cool.

Eradication of Sweet Clover.

Some farmers hesitate to plant sweet clover on their farms for fear they will have difficulty in eradicating it when the fields are planted to other crops. The results obtained annually by hundreds of farmers are sufficient proof that there is no foundation for such fear; in fact, farmers are experiencing much difficulty in cutting the first crop the second season so high that the plants will not be killed. The new crop of sweet clover, unlike that of red clover and alfalfa, must come from the buds left on the stubble, so when the plants are cut below these buds they will be killed. As sweet clover is a biennial, the plants die as soon as the seed crop is produced.

When the first year's growth of sweet clover is to be turned under for green manure it is recommended that the field be plowed after the plants have made some growth the following spring. When the plowing is delayed until the plants have made some growth the following spring no trouble will be experienced in eradicating them.

Sheep are excellent weed destroyers, as they keep the weeds nibbled so closely that no seeds are formed and the roots are exhausted. A small flock of sheep is an excellent scavenger on almost any farm, and they make profitable use of waste land, provided that dogs and internal parasites can be controlled.

Canned pineapples to the value of \$5,986,190 were shipped from Hawaii to the United States in 1915.

The large number of failures in obtaining a stand of sweet clover are due primarily to acid soils, lack of inoculation, and seed which germinates poorly.

The apple is the most important fruit grown in the United States, considering the quantity produced, value of product, and wide distribution of cultivation.

Sprains And Strains Relieved.

Sloan's Liniment quickly takes the pain out of strains, sprains, bruises and all muscle soreness. A clean, clear liquid easily applied, it quickly penetrates without rubbing. Sloan's Liniment does not stain the skin or clog the pores like musky plasters or ointments. For chronic rheumatic aches and pains, neuralgia, gout and lumbago have this well-known remedy handy. For the pains of gripe and following strenuous work, it gives quick relief. At all druggists, 25 cents.

OLD STAGE COACH GONE.

Visitors to Yellowstone to Use Touring Cars.

The old-fashioned stage coach has passed from its "last stand" in the Yellowstone National Park. In 1915 Secretary Lane admitted private automobiles to the park, but retained the horse-drawn stages. This necessitated special motor schedules to avoid accidents. The situation remained the same last season under an enormous increase of motor travel. This season, however, the old stages are replaced by a fleet of seven and ten passenger cars, and the restrictions to general automobile travel are largely removed. The work begun in 1915 is completed. The Yellowstone is motorized.

This change was not accomplished wholly without opposition. Many persons held that the old stages should be retained for sentimental and historical reasons. But, while the Department of the Interior shared their regrets in the passing of so picturesque an institution, there was no withstanding the march of progress. Visitors were increasing rapidly and were demanding a faster passage between scenic spots than

horse-drawn vehicles permitted. Those with limited time complained that more than half their visit was spent in passage through uninteresting lodgepole forests—time which they wanted in the geysers, basins, at the Canyon, and at the greater lakes. Others complained that the stage rides were so exhausting that they could not appreciate the great spectacles when they reached them. And the demand of touring motorists for greater freedom grew even louder and more insistent.

So progress had its way and this year we have a new Yellowstone.

The automobile service will be adequate and rapid. Those who have at their disposal only the six days which was the necessary minimum of a Yellowstone visit under the old transportation system will now be able to spend nearly all of it at points of special scenic interest or in seeing wilderness features never seen by former visitors of limited stay.

As for the motorist, he will now be able to use the park's more than two hundred miles of road with almost the same freedom as roads anywhere else in America.

Stop Left Over Coughs.

Dr. Bell's Pine-Tar-Honey will stop that hacking cough that lingers from January. The soothing pine balsams loosen the phlegm, heal the irritated membrane, the glycerine relieves the tender tissues, you breathe easier and coughing ceases. Don't neglect a lingering cough, it is dangerous. Dr. Bell's Pine-Tar-Honey is antiseptic and pleasant to take, benefits young and old, get it at your druggist to-day. Formula on bottle. 25c.

Pains, Dizzy Spells

Mrs. G. P. Cartwright, of Whitwell, Tenn., writes: "I suffered with bearing-down pains. . . The dizzy spells got so bad that when I would start to walk, I would just pretty nearly fall. Was very much run-down. I told my husband I thought Cardui would help me. . . It helped me so much that I got a whole lot better. The dizzy spells and the bearing-down pains . . . left me entirely."

If you are weak and run-down, or suffer from womanly pains,

TAKE

CARDUI

The Woman's Tonic

You can feel safe in giving Cardui a thorough trial. It is composed of mild, vegetable, medicinal ingredients, recognized by standard medical books for many years, as being of great value in the troubles from which only women suffer. The enthusiastic praise of the thousands of women who have been helped by Cardui in its past 40 years of successful use should assure you of its genuine merit, and convince you that it would be worth your while to try this medicine for your troubles. All druggists sell it.

FIRST NEGRO CAMP IS AT DES MOINES

TRAINING OF OFFICERS FOR COLORED REGIMENTS BEGINS.

Des Moines, Ia., June 19.—Patented after the four officers' training camps established a month ago, the training camp for the negro officers that are to hold commands in the colored regiments provided for under the selective conscription law, was opened to-day at Fort Des Moines, with the student enrollment set at 1,200.

Col. C. C. Ballou, of the Thirty-seventh United States infantry, in command of the camp, is assisted by a staff of white officers of the regular army, thirteen in number, and as the work progresses, some of the students with military training will be called on to assist.

For three months the embryonic officers, carefully selected from applicants in the six territorial departments of the United States, will be drilled on field and in lecture room for possible service abroad under Maj. Gen. Pershing, who was a classmate of Col. Ballou in the class of 1886.

In addition to the approximately 1,000 candidates selected in the various departments, 250 negro non-commissioned officers of the regular army are trying for commissions. The latter were selected from the Ninth and Tenth cavalry and the Twenty-fourth and Twenty-fifth infantry.

A majority of the candidates are college men; many of them prominent in the professions of law or medicine, or with considerable business training. Quite a number, in addition to the non-commissioned officers, have had some military training, both practical and theoretical.

The senior instruction officer is Major Castle, and the other white instructors are Majors Surtevant and Ingram, Adj. T. Mollroy, Capt. Ragadale, Reistine, Steever and Everington, and Lieuts. Frank, Murray, Nalle and Ord. The quartermaster is Capt. Wallace. Two negro reserve officers, Maj. A. W. Ford and Capt. Joseph Phillips, may be added to the force of instructors.

GETS \$225,000 VERDICT FOR BREACH OF PROMISE

New York, June 19.—A verdict of \$225,000 in favor of Miss Honora May O'Brien, 28 years old, in her breach of promise suit against John B. Manning, a retired banker and millionaire, 85 years old, was awarded by a State Supreme Court jury in Long Island City to-day. The plaintiff, secretary to a New York newspaper man, alleged that the defendant, father of grown children, broke his promise to marry her.

Valuable Pullets.

J. F. Hamilton, of Bachelor's Rest, bought nineteen pullets in December at a cost of \$7, and kept them until April 20, when he sold them for \$14 and during that time he received seventy-eight and one-half dozen eggs, bringing him 23.45. The feed cost him \$10. His profit on the nineteen pullets for less than five months is 23.45. This is the best record Mr. Hamilton ever had with chickens. He sold eggs from 25 cents to 43 cents per dozen, and averaged 30½ cents. Who can beat this record?—Palmouth Outlook.

Children Cry FOR FLETCHER'S CASTORIA

Practice Makes Perfect.

They were at the theater, and the young lady was immensely taken with the leading man. "Watch," she said, "with what precision he steps across the stage. Every stride is of exactly the same length."

Her escort was just a little jealous.

"Yes," he said, cruelly, "I imagine that habit was acquired from walking the railroad ties."

With Her Eyes.

They stood by the old well together. "How shall we drink?" she said, "there is no bucket here." She lowered her eyes, when she raised them again they were full of water.—Princeton Tiger.

New Rocky Mountain Trail.

Two lakes of supreme beauty in the Rocky Mountain National Park, which have been inaccessible heretofore will be opened up by trail this season. They are Lake Nantua and Lake Nokoni on the west side of the Continental Divide near the headwaters to North Inlet. They lie in deep gorges surrounded by lofty mountains. Lake Nantua, at the foot of Andrews Peak, is one of the most romantic in the Rockies.

The new trail will strike in to these

lakes from the Flattop Trail, which crosses the Continental Divide and joins Estes Park on the east with Grand Lake on the west; so it is accessible to all Rocky Mountain National Park visitors.

YOUNGEST DAUGHTER OF GROVER CLEVELAND TO WED

New York, June 16.—The engagement of Miss Marion Cleveland, youngest daughter of Grover Cleveland, to William Stanley Dell, of this city, was announced at Princeton, N. J., to-day by Mrs. Thomas J. Preston, Jr., who was the wife of the late President. Miss Cleveland has been a student here at the Teachers' College, Columbia University, for two years. Mr. Dell was graduated from Princeton in 1916, and is connected with the editorial staff of the New York Evening Sun.

7 BROTHERS DEAD OR HURT, PASTOR ENLISTS

Greencastle, Ind., June 16.—The Rev. Thomas Young has resigned the pastorate of the Presbyterian Church of this city to enter the English army. Of eight English brothers, he is the only able-bodied one left. The others have been killed or wounded in the service of the British Empire.

Demand For Draft Horses.

"The marked improvement in the industrial world has caused teams of good draft horses to be in good demand at comparatively high prices," says Wayne Dinsmore, secretary of the Vercheron Society of America. Draft geldings have been in good demand at high prices; and the demand for useful draft mares is already so strong that horse dealers are being eliminated as buyers of draft mares. Pure bred draft horses are also in keen demand. The elimination of imports since August, 1914, has resulted in a marked stimulus to horse breeding in this country and more satisfactory prices have been paid to the breeders and raisers of good American-bred draft colts than at any other time in past history.

Give your young weanling pigs the run of a young forage crop with about half a grain ration, mostly corn. It does not pay to run pigs on pasture without grain, as our experience is that under such circumstances they scarcely maintain their weight.

GERMAN STEAMER IS TORPEDOED BY SUBMARINE

Amsterdam, June 17 (via London).—According to the Telegraaf, the German steamship Turin, which was reported to have struck a mine off the Dutch coast while bound for Amsterdam from Sweden in reality was torpedoed by a submarine. She remained afloat.

ANNUAL VISIT MADE TO THE PYTHIAN HOME

Lexington, Ky., June 17.—Annual visitation day at the Pythian Home brought a delegation of nearly 200 Knights of Pythias from Louisville to-day. Exercises by the children at the home and speeches by members of the Louisville delegation and Lexington Pythians marked the day's activities.

Dr. Browder Gaines, James L. Stark and E. G. Pommann, of Louisville, made short talks.

MASTER COMMISSIONER'S SALE.

Ohio Circuit Court.

W. R. Hines, Plaintiff,

vs.

T. A. Wimsatt, etc., Defendants.

Pursuant to a judgment and order of sale duly entered in the above styled action at the May, 1917, term of the Ohio Circuit Court, in favor of the Plaintiff for the sum of \$75.00, with interest thereon from January 1st, 1905, until paid and all costs, I will offer for sale at public outcry to the highest and best bidder at the court house door in Hartford, Ohio county, Kentucky, on Monday, July 2nd, 1917, (it being regular County Court day) at about the hour of one o'clock p. m., the following described property, to-wit:

A certain tract of land lying in Ohio county, Kentucky, near Palo, known as the Henry Wright tract and bounded on the South by the lands of K. C. and N. E. Berry, on West by the lands of P. W. Taber, on North by the Falden line and on the East by the lands of Emma Wimsatt. Same land conveyed to W. E. Kelley on Nov. 8th, 1903, deed of record in the Ohio County Clerk's office, Deed Book No. 26, page 398, conveyed to T. A. Wimsatt by W. E. Kelley and wife October 15th, 1904, deed of record in the Ohio County Clerk's office in Deed Book No. 44, page 540, and conveyed to John T. Wimsatt by T. A. Wimsatt by deed of record in Ohio County Clerk's office in Deed Book 44, page 541. Said land will be sold on a credit of 6 months and the proceeds of the sale will first be applied to the satisfaction of the plaintiff's debt, interest and cost and the balance, if any, to

MASTER COMMISSIONER'S SALE.

Ohio Circuit Court.

Com'th. of Ky., Plaintiff,

vs.

John Render & Mabel Render, Defendants.

Pursuant to judgment and order of sale, duly entered in the above styled action at its May term, 1917, in favor of the plaintiff for the sum of \$179.20 with all interest and cost and the cost of this sale, I will offer for sale at public outcry to the highest and best bidder at the court house door in Hartford, Ohio county, Ky., on Monday, July the 2nd, 1917, (it being regular County Court day) at about the hour of one o'clock p. m., the following described property, to-wit:

The one-fifth interest of defendants, John Render and Mabel Render, in the entire estate of E. P. Moseley, consisting of 76 acres of land conveyed to E. P. Moseley by E. G. Render and Edith R. Render by deed dated September 3, 1885, and recorded in the Ohio County Clerk's office in Deed Book No. 14, folio 147; Also one acre, more or less, conveyed by John T. Casebier and wife to E. P. Moseley by deed dated July 28th, 1891 and recorded in the Ohio County Clerk's office in Deed Book No. 19, folio 133; also thirty acres, more or less conveyed by J. E. Maddox and Verna Maddox by deed dated February 3rd, 1902, and of record in the Ohio County Clerk's office in Deed Book No. 32, folio 199, including all appurtenances belonging to the said tracts of land. Said sale will be made on a credit of six and twelve months and the purchaser will be required to execute bond immediately after the sale with approved security and a lien will be retained on said land until the said purchase bonds are fully paid.

Given under my hand, this the 14th day of June, 1917.

GERMANS REOPEN OLD ROMAN MINE

SHAFT CLOSED FOR CENTURIES DISCOVERED, NOW WORKED BY TEUTONS.

Frankfort, June.—In the romantic valley of the River Nahe, between Kreuznach and St. Wendel, German mining engineers have found ancient copper mines, forgotten for centuries. These are now in full operation again and are yielding large quantities of the metal that has become so precious.

Deputy Eugene Abresch, an engineer of Naustadt, first called attention to the old mines. They had been re-discovered by him accidentally. A commission of experts was sent to make an investigation and ascertained that dozens of copper mines had been operated in this district probably a thousand years ago.

Old Shaft Discovered.
In the valley of the Hosenbach, a small tributary of the Nahe, the commission discovered an old mine shaft which had been covered up hundreds of years. Before the shaft could be opened again a large number of trees had to be cut down and it was necessary to remove enormous quantities of earth.

Penetrating into the mountain about 400 feet, the engineers reached a subterranean chamber or hall about ninety feet high and thirty to fifty feet wide—one of the forgotten ancient mines. A hasty examination showed the copper vein worked by the old Teutons, and probably also by the Romans, is still rich and will be able to furnish a large part of the copper needed by Germany for centuries.

The main chamber of the mine presents a wonderful picture, with its bluish-white stalactite and stalagmite formations and green malachites. From this dozens of small shafts are driven deep into the mountains, all leading to rich deposits of copper.

Worked Years Ago.
Evidently the mine had been operated long before blasting powder was known. The tools found seem to have been manufactured between the Tenth and Fourteenth centuries. The mine was probably abandoned in the Thirty Years War, or even a century earlier in an invasion by a foreign enemy.

The report of the commission of experts was so favorable that the Government decided to work the mine and several smaller ones in the same district. Preparations took many months. Modern plants were built and exploitation of the mines finally has been started with splendid results.

For military reasons the Government has kept this source of its copper supply secret as much as possible however, and the existence of the mines has only now become generally known.

Sunday School Pic-nic.
The members of the Dundee Circuit, M. E. Church South, will give a Sunday School Pic-nic at Sulphur Springs on July 4th. Proceeds to be applied on indebtedness on parsonage at Dundee. Come out and help in a worthy cause.

BEADS ODDLY STRUNG.

(By J. H. Thomas.)
If Judge Wilson's Magisterial Districting Committee's report holds, we shall live in a Magisterial district that stretches all the way from Davies to Grayson counties, or as the lost traveler said from hell to Harper's Ferry. We see now why the Judge did not stand for re-election.

Ohio county has the biggest crop of Irish potatoes and candidates in its entire history.

We were in Hartford Monday and visited the Republican office. Editor Tinsley 'peared a little cool but in the composing room we received

a royal welcome from Duke and King.

We wonder if the President will still insist we must have peace without a victory.

Congress is going to impose a tax of \$50.00 a hundred pounds on grain used in the making of liquors but the happy backwoodsman may still set a jar of elder juice in the south window of his cabin.

Gen. Pershing received a great ovation in France. Let us hope he has better luck in capturing the Kaiser than in corralling Villa.

Daniel E. O'Sullivan writes a lengthy article in a Louisville paper under the caption "The truth about Percy Haley", but all the Republicans and a good many Democrats already knew the truth about Percy.

Our experience with pool has been confined to awkwardly punching a few holes in the green cloth but still we are sorry to hear that the first soldiers selected under the selective draft will be from the pool room loafers.

The American Express Company requires the consignees of liquor shipments to file affidavits made before a notary public that goods are for personal use etc. Glad we are a notary, and bet Tinsley gets a commission at once. The said consignees are mighty liberal with notaries.

The management has sent its local agent, for free distribution in Ohio, forty tickets for the Salt River excursion August 5. No refreshments will be served.

Tins, who is this new Dr. Simmerman you write about? What is his speciality, teeth, corns or hosses?

Say, Tinsley, if you know anything meander to say about Bat Nail than you've said, say it. I feel awful mean toward him but really I don't know of any meanness he's done, but then he is liable to. An ounce of preventative is worth a pound of cure.

A busy farmer up in the Magan neighborhood takes his shotgun to the field with him every day and the candidates don't bother him.

It must be a sad season for Perry Crowder, away off in California and a primary on in Ohio County.

Notice in Bankruptcy.
In the matter of Silas J. Tichenor in bankruptcy.

To the creditors of Silas J. Tichenor of MeHenry, in the county of Ohio and district aforesaid, bankrupt.

Notice is hereby given that on the 15th day of June A. D. 1917, the said Tichenor was duly adjudicated bankrupt, and that the first meeting of creditors will be held at the law office of Heavrin & Martin in Hartford Ky., on the 13th day of July A. D. 1917, at 1 p. m., at which time the said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt and transact such other business as may properly come before said meeting.

Petition filed June 15th, 1917.
J. A. DEAN,
Referee in Bankruptcy,
Owensboro, Ky., June 19th, 1917.

Do You Know That
Civilian health is the rock upon which military efficiency rests? The little house fly is a dangerous thing. The time to "swat 'em" is in the spring? The ingestion of wood alcohol may produce blindness? Swimming is a healthful exercise? Human beings are the great agencies in the spread of human diseases? No community can be really successful without safe waste disposal?

FRAUD ORDER FOR OHIO COUNTY CO.

PT. PLEASANT CONCERN CHARGED WITH WRONGFUL USE OF MAILS.

Washington, June 18.—Postmaster Gen. Burleson today issued a fraud order against the Hydroplane Construction Company, of Point Pleasant, Ky. The memorandum given out in the case says this alleged concern has been using the mails to solicit orders for motorboats, that its factory consists of one blacksmith shop and that it is not in a position to fill the orders. Remittances varying from \$20 to \$800 have been received, the inspectors reported, and orders have not been filled.

Representative A. B. Rouse, of the Covington district, escorted A. B. Rouse, Jr., to the floor of the House during today's session. A. B. Jr. is 10 years old and the youngest person who ever occupied a seat in the House while the law-making mill was grinding. When he saw his mother in the visitors' gallery he started a fuss that caused the solon to beat a hasty retreat with the youngster in his arms.

BALD KNOB NEWS.

June 18.—We are all very thankful for the good rains which we are having, which is causing us to have unusually good crops this spring.

Born to Mr. and Mrs. C. M. Taylor, on the 16th a fine boy. Mother and babe doing well.

Mrs. J. M. Sanderfur is visiting her son Mr. E. P. Sanderfur and family.

Brother Browning filled his regular appointment at this place Saturday night and Sunday, with a good attendance.

Prof. Henry Leach and son, Hinton and sister-in-law, Mrs. Mary Leach and daughter Miss Minnie visited Mr. Len Leach and family last week.

Miss Ethel Ray Miller spent last week with her cousins, Misses Connye and Mae Sanderfur.

Mrs. J. A. Davis is visiting her daughters Mrs. Mary Ramey and Mrs. Luella Shields, at this writing.

Mr. J. T. Smith is improving. The wind storms which we have been having have done considerable damage to timber and orchards around here.

NOTICE.

Farmers Co-operative Tobacco Growers Association.

Every tobacco grower and every person interested in the growing or selling of tobacco is invited and requested to be present at a meeting to be held at Hartford, Ky., Saturday, June 23, at 2 p. m.

The purpose of said meeting being to discuss methods as to the disposition, handling and selling of the future crop.

J. E. GREGORY, Pres.

MEN WITHOUT DEPENDENTS CALLED BY PRESIDENT

Washington, June 20.—President Wilson issued a proclamation to-day designating the week of June 23-30 as recruiting week for the regular army, and called upon unmarried men without dependents to enroll for war service in order that the ranks of the regulars might be filled promptly.

The proclamation follows:

"Proclamation by the President: I hereby designate the period of June 23 to June 30 next as 'Recruiting week' for the regular army, and call upon unmarried men between the ages of 18 and 49 years, who have no dependents and who are not engaged in pursuits vitally necessary to the prosecution of the war to present themselves for enlistment during the week herein designated, to the number of 70,000.

"WOODROW WILSON."

Whooping Cough.

In this disease it is important that the cough be kept loose and expectoration easy, which can be done by giving Chamberlain's Cough Remedy. Mrs. P. H. Martin, Peru, Ind., writes, "My two daughters had whooping cough. I gave them Chamberlain's Cough Remedy and it worked like a charm."

Wheat in Indiana and Kentucky.

The Department of Agriculture estimates that this year's Indiana wheat crop will exceed that of last year by nearly 5,000,000 bushels. The Indiana crop is 24,287,000 bushels, as against 19,440,000 bushels last year, and five-year average of 14,606,000 bushels.

The Kentucky wheat crop this year is estimated by the department to be 7,226,000 bushels, as against 8,010,000 bushels last year, and a five-year average of 9,813,000 bushels.

CENTERTOWN.

Miss Grace Rhoades is visiting relatives at Beaver Dam this week. Miss Pearl Tichenor spent a few

days this week with friends in Owensboro.

Miss Bessie Masen left Friday for Bowling Green where she will attend the Summer term at the Normal. Albert Rowe who has been attending the Normal at Bowling Green is at home.

Rev. J. J. Willet filled his regular appointment here Saturday and Sunday. His home this month was with Mr. and Mrs. Alva Caloway.

Miss Annie Lencer went with her Sunday School class on an outing Saturday. Every one reported a jolly good time.

The young people's Auxiliary Club will give a play Saturday night June 23. The proceeds will be used for the walk to the Baptist Church.

Might Be a King.

The second officer of the brig was in the act of upbraiding the able seaman, Aaron Tappin, for his weakness for rum. Said the second officer:

"Tappin, you might be a second officer like me instead of a sailor before the mast."

"Stow that stuff," answered the able seaman. "When I'm drunk I'm an admiral."—London Opinion.
